## PREFERRED DIVIDENDS OF ATLANTIC GULF POSTPONED

New York, March 3.—Directors of the Atlantic Gulf and West Indies Steamship lines today announced postponement for two months of action on the preferred dividends, due at this time.

Preferred stock of the "Agway" is entitled to non-cumulative dividends of five per cent, and these had been paid without interruption for several years, said the statement adding that the directors were confident of a successful outcome of the financial negotiations now being carried on.

Common stock of the corporation has been among the most active and reactionary issues in the stock market during recent months. The stock, subjected to heavy liquidation, was especially weak in the later dealings on the exchange today, its further violent decline causing general uneasiness throughout the list.

Money talks—but it converses with only the favored few.

## SIX STATES IN NEW ATLANTIC DIVISION, RED CROSS

Six states with a total population of more than 25,000,000, nearly one-quarter the population of the entire country, will constitute the new Atlantic division of the American Red Cross, under the plan of reorganization by which the thirteen divisions in the United States are reduced to eight. A yearly saving of more than \$1,000,000 will result from the abolition of the five divisional headquarters.

In addition to New York, New Jersey, and Connecticut the Atlantic division will embrace Pennsylvania, New Jersey, and Maryland now a part of the Potomac division. Headquarters of the organization will remain at No. 44 East Twenty-third street, New York City.

It is expected that the administrative details growing out of the consolidation will be completed by April 1. There are 324 chapters in the six states with a total adult Red Cross membership of 1,434,990 and a Junior Red Cross membership of more than 1,000,000. Philadelphia, Pittsburgh, Baltimore, Wilkes-Barre, Scranton, Wilmington, and Harrisburg are some of the centers of the division under the new arrangement.

The seven other divisions of the organization under the new alignment will be as follows:

New England Division—Maine, Massachusetts, Rhode Island, Vermont and New Hampshire, with headquarters at Boston. (No change.)

Lake Division—Michigan, Indiana, Ohio, West Virginia and Kentucky, with headquarters in Cleveland.

Southern Division—Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi and Tennessee, with headquarters at Atlanta.

Central Division—Illinois, Wisconsin, Iowa, Minnesota, Nebraska, South Dakota, North Dakota, Wyoming and Montana, with headquarters at Chicago.

Southwestern Division—Missouri, Arkansas, Kansas, Oklahoma, Texas, Colorado and New Mexico, with headquarters at St. Louis.

Pacific Division—California, Nevada, Utah and Arizona, with headquarters at San Francisco.

Northwestern Division—Oregon, Washington and Idaho, with headquarters at Seattle.

It is planned to add the Northwestern division to the present Pacific division when the other consolidations have been fully effected.

## AIM TO RAISE \$3,000 HERE FOR RELIEF IN IRELAND

An allotment of \$3,000 for this section has been made in the fund to be raised nationally under the American Committee for Relief in Ireland and Ex-Mayor J. C. Brown has been named to take charge of the raising of the local allotment.

He has called a meeting for Sunday afternoon at 3 o'clock at the Buckingham Memorial when he expects to have an attendance of all who are interested, especially those who are to work in the towns in this district which includes Norwich, Middlebury, Colchester, Broomfield, Franklin, Sprague, Lisbon, Voluntown, Griswold and Preston. The campaign will be started March 11 and it is expected to continue for about 10 days.

Committees have been raised in the various towns to which will be delegated the work of soliciting contributions.

The relief movement is non-sectarian. The American Committee for Relief in Ireland of 1 West Thirty-fourth street, New York City, is made up of many prominent people, including Cardinal Gibbons. In its appeal to the American public it says:

"In Ireland today thousands of women and children have been driven to the pitiful refuge of the fields and the country. Halfstarved, shivering, and dying, they are being sold for a few pence to the workhouse, where they are to be starved and beaten."

"Over 400,000 acres of the co-operative plants of great and small communities, built by Irish farmers, have been razed to the ground, and the economic units they served have been paralyzed."

"Thousands of Irish have been thrown out of employment by the burning of factories and creameries and in consequence of the general disturbed condition in Ireland, about 50 thousand shipyard workers and their families are on the verge of starvation."

"To meet this appalling situation and to cope with it before it reaches a point where it may menace the very existence of the Irish people, the American Committee for Relief in Ireland has formed. This committee is a non-political and non-sectarian body, solely humanitarian in aim, which calls on the co-operation of those in whose human suffering evokes sympathy."

This American committee proposes to supply relief to the women and children in Ireland, without regard to political or religious differences, through trained relief workers, distributing foodstuffs, clothing, building materials and medical stores."

"The suffering and the helplessness in Ireland seek aid from the American people, who have never yet refused an appeal from the suffering and helpless. To relieve the bitter need of the Irish people, the undersigned appeal for aid to the humanity of America."

## OBITUARY.

Mrs. James Burke.

The death of Catherine O'Connell, wife of James Burke, occurred Wednesday at her home in New London. She had been in failing health for the last eight months.

## \$500,000 WORTH OF CARS DISPLAYED AT NORWICH AUTOMOBILE SHOW

Automobiles, trucks, batteries and other accessories to a total value of over \$500,000 are on display at the auto show which opened Thursday afternoon at the state armory under the auspices of the Norwich Automobile Dealers' association.

The motor cars alone are valued at \$350,000, and the accessories, including tires, patent wheels, batteries, amount to several thousand dollars. The show will continue Friday and Saturday and is open afternoons and evenings.

The scenery where the show is being held presents a very attractive appearance, the lobby being decorated with bunting and flags, and the main hall being hung with streamers of various colors.

From these points in the hall are hung festoons of flags and around the walls is hung a groundwork of white with red and yellow designs worked upon it. The aisles and booths are marked by arches on which are hanging vines and electric lights. The scene with its colors and electric lights, beneath which glimmering cars with rich upholstery are seen, is one of great attractiveness and compares favorably with any show ever put on in the state. An orchestra located in the balcony at the further end of the hall, and directed by Prof. Herbert B. Smith, furnishes music during every afternoon and evening.

The following was the program given:

Star Spangled Banner, Sousa; March, Stars and Stripes, Sousa; Overture, Light Cavalry, Suppe; The Blue Danube, from Tchaikovsky, Selection, Good Times, Hubbell; Song for carols, Down the Trail to Home, Sweet Home, Ball; Fox trot, Darling, Schenberg; Operatic Time, The Place and the Girl, Howard; Novellette, Manis, Dawson and Gold; Fantasia, Standard Airs, Rosey; Finale, America.

As one enters the lobby there is a booth devoted to automobile insurance. The booth is in charge of J. R. Barrett, representative of the Travelers Insurance company. P. Leander, of the Hartford Tarrant & Co., who are local representatives, have their agents stationed in the booth.

After passing through the entrance to the main hall at the right is a battery exhibit of Julian L. Williams, agent for the Diamond Grid battery. This exhibit is in charge of C. H. Woodward.

Next is an exhibit of accessories of the A. T. Greene Co. which includes Firestone tires, Sewell wheels and general tires and other accessories. E. H. Dure exhibits the Phoenix fire extinguishers.
